

Secret Stash #1:

"The First Dry Trail"

Level of Difficulty: Scream and Shout

Drive NW on Hwy 40 to County Road 85 87, and park. Ride up CR87 to the top of the hill where it dead ends. Continue to ride down the hill and go slightly right to get past the gate onto "Wade's World". Ride over the small creek and up 20 ft or so and turn left on the single track on the hillside (Bloody Elbow). Follow this trail. When you get to a very rocky section stay right. Do not drop down the steep trail straight ahead. (Save this for the return trip.) Continue east, hiking your bike up the rocks to the single track again. After many twists and turns you will come to an opening and a "T" in the trail. Turn left on Ridge Trail. Continue riding until you come to another opening in the trees. There will be a trail on your left that drops off (Steep In Steep Out) which will take you back to the rocky area after a very steep short hill. The first part of the ride may take 30-45 minutes. The Steep In Steep Out may take up to another hour. There are no trail signs so you may want to [print the map](#) and take it with you.
